BRIEFLY: On July 8, 2002, Washington Elementary School will be launching its summer enrichment program with funds made available by PPL Corp. through the PA Business Tax Credit program administered by the Lehigh Valley Business Education Partnership. For 20 days over five weeks, 100 qualified Washington students will attend full days to improve reading and math skills. Thanks to the Pennsylvania Business Tax Credit program, PPL was also able to fund another 140 students at Central, Cleveland, and Mosser Elementary Schools. The total contribution in 2002 from PPL is \$120,000. In addition, nine PPL employees have volunteered to assist teachers at Washington Elementary School, one of PPL's partnership schools.
