

**MOSSER ELEMENTARY SCHOOL STUDENTS TO CELEBRATE NATURE**

**DATE:** Friday, May 6, 2005

**TIME/LOCATION:** 8:30am-2:10pm  
Mosser Elementary School  
129 South Dauphin Street, Allentown

**BRIEFLY:** Mosser Elementary School will celebrate Mosser Woods, the school's outdoor environmental center, and learn about nature from various community presenters on Friday, May 6. Students will attend presentations by representatives from Aventis, University of Pennsylvania Veterinary School, Pennsylvania Forestry & Soils Department, Kutztown Area High School horticulture students, and Louis E. Dieruff ROTC students among others. The day is designed to engage students in nature and their surroundings.

"This yearly event is a great learning experience for our students and it is also fun," says Peggy Egolf, first grade teacher. "From a snake presentation to information on soils and animals, our students enjoy learning about nature and the environment. Mosser Woods serves as a great resource to our students, and it's fitting that we incorporate it into this special day."

**RSVP CONTACT:** Susan L. Williams, APR, MA
