*ASD Opening of Schools*

*Family Survey Summary*

*Data Pulled from: June 12 - July 21, 2020*

---

**Family Survey: Total 2,761**

English Results (2,291): <https://www.surveymonkey.com/results/SM-KKMM72W37/>

Spanish Results (425): <https://www.surveymonkey.com/results/SM-7HCP92W37/>

- 91% of the respondents were parents, 8% students, <1% community members
- 724 respondents indicated their student had an IEP, 668 EL (Combined #s from English & Spanish Survey)

**Distance Learning**

- **95%** of the respondents indicated they **have a device at home** on both surveys (11% shared with siblings in English responses, 8% in Spanish)
- **97%** of the respondents indicated they have **high-speed wifi access** - this drops to **82% for Spanish survey respondents**
- What parents found the most challenging (top 3 answers)
  - My student's motivation to complete assignments
  - My student's ability to prioritize and practice time management
  - My own work/home balance with kids at home
- What parents found the most challenging for their student:
  - Not enough live interactions/classes with teachers and classmates (60%)
- 59% of respondents noted flexibility with the instructional day and assignment deadlines, the ability for my student to work at their own pace as the biggest benefit
- 49% of respondents stated their students had no direct contact with their teacher (Zoom/GC) or contact less than once a week. 47% of Spanish speaking families responded with the same answers.

**Fall Scenarios / Safety**

- The district is considering a number of options when it comes to returning to school buildings this fall. Do you feel comfortable sending your student to school?

- **39% YES / 60% NO**
- **Spanish responses: 24% YES / 75% NO**
- 22% *would like their child to continue distance learning full time / 29% of Spanish respondents selected the same choice*
- 59% *are concerned that health and safety protocols wouldn't be followed / 62% of Spanish respondents selected the same choice*
- Please indicate which educational delivery option you most support for your student this fall:
  - **40% of families** indicated they prefer an on-time start through distance learning, with a transition to buildings once is safe to do so / **62% of Spanish speaking families** selected the same choice
  - 26% - on time start in buildings, move to distance if needed / 18% of Spanish speaking families selected the same choice
  - 33% - On-time start where some students are in learning in buildings and some students are using Distance Learning (alternating days of the week) / 19% of Spanish speaking families selected the same choice
- Safety Protocols Parents expect would be in place (top 3 - over 75% for each answer)
  - Temperature checks daily for all students and staff
  - Staff wearing face coverings/masks (*77% favored staff wearing masks, only 66% thought students should*)
    - *88% of Spanish speaking families favored staff masks, 81% believed students should*
  - Signage reminding staff and students of proper hygiene
- Primary concerns about returning to school (top 3)
  - Classrooms and other student gathering places not properly disinfected
  - Public health regulations not being followed
  - Availability of disinfecting materials or PPE (personal protective equipment)
    - *Only 17% selected childcare as a concern, 15% transportation - English*
    - *44% of Spanish families indicated childcare would be a concern if we returned to distance*
- Transportation
  - 79% indicate student walk or they provide transportation / 72% of Spanish respondents indicated the same
  - Of those who take First Student buses, 32% indicated they would not be comfortable sending their student on a bus. This was only 10% for Spanish respondents
