

Parent Supports

A guide on working in your n2y solutions!

1. Signing In

n2y offers 3 different login types in order to provide options for the student's unique needs. Those three types are signing in with a Username and Password, Simplified Password, or QR Badge. All the information needed for this will be provided by your student's teacher. For supports on how to sign in under each type, see below:

- [How to sign in with a Username and Password](#)
- [How to sign in with a Simplified Password](#)
- [How to sign in with a QR Badge](#)

2. Navigating your Student's View

Upon signing in, you will be prompted to select which solution you are wanting to work in: Unique Learning System or News-2-You.

Where would you like to go?

Clicking on Unique Learning System's orange snowflake will pull up all the activities that student is set to complete that day as well as any library books that are assigned to them! This view is configured by your student's teacher, therefore, there should be close coordination with your teacher to receive instruction on each activity.

If you select News-2-You, you will be able to access current news! This area provides fun learning activities and any current or breaking news articles that are available.

Completing Unique Learning System Activities

Each activity that appears in your student view was assigned by the teacher to complete. There should be collaboration with the teacher to receive instruction. From there, you can click on whichever activity you are wanting to complete and work through each page.

The screenshot shows the Unique Learning System interface. At the top, it says "unique learning system" and "Welcome, Frank Frog". Below this is a "My Activities" section with several activity cards: "Math Story Problems - A Activity 1" (19), "Word Study Activity 3" (16), "Chapter 1 Read and Answer Activity 2", "Chapter 1 Read and Answer Activity 3", "Science Experiment Activity 3", and "Branches: The Balance of Activity 2". Below this is a "My Library Books" section with "A Hat For Gen B" and "A Place for Me B". A larger window is open over the "Math Story 1b Adding to 10 Vertical" activity. The problem text reads: "Ryan and Randy are selling ice cream cones at the concession stand. Ryan sells 3 ice cream cones. Randy sells 2 ice cream cones. How many ice cream cones do they sell altogether?". The problem is presented as a vertical addition: 3 ice cream cones (represented by 3 cones) plus 2 ice cream cones (represented by 2 cones) equals a box containing the number 5. The question is repeated at the bottom: "Number of ice cream cones they sell altogether?" with a box for the answer.

Please note: Once you complete an activity, it will remain on the page the same way you saw it initially. Some activities will allow for multiple attempts, whereas some may be just a continuous attempt that you can only do once.

Each activity also has text-to-speech capabilities. When clicking on the text, our system will read the text out loud!

The Kinder family is at an amusement park. They see roller coasters and rides. They see games, shops and places to eat.

Reviewing News-2-You Articles

Articles and activities that appear in the News-2-You section are chosen by the teacher as well. Current Event articles can be found at the top, followed by Joey's lockers activities, and finally with Breaking News articles.

The screenshot displays the News-2-You website interface. On the left, a grid of article thumbnails includes 'School Year Decisions', 'Communication Board', 'Joey's Locker', 'Let's Go', 'Build A Word', 'Helicopter Jo', 'Breaking News', 'College Football Announcements', 'Kamala Harris News', and 'LeBron James Writes Book'. A red arrow points from the 'School Year Decisions' thumbnail to a larger view of the article. The article view shows the title 'SCHOOL YEAR DECISIONS' with a 'WHAT?' icon. Below the title, there are three paragraphs of text, each accompanied by a small illustration: 'A new school year starts soon in the U.S.', 'This school year may be different because of the coronavirus.', and 'The coronavirus spreads from person to person.'. The final paragraph reads 'School leaders do not want it to spread in schools.' On the right side of the article view, there is a vertical navigation bar with various icons and a 'GO' button. A red arrow points to the 'GO' button.

Fun tip: Current event articles contain fun puzzles, think pages, and more! After opening the article, you can review the available materials in the article by using the Navigation Bar! Use the "Go" button to jump ahead pages.

Who do I contact for support?

- You can contact our Customer Support team by email at support@n2y.com, by calling 800-697-6575 option 2, or you can chat directly with an agent by using the orange "Help" button in the bottom right hand corner of the site. See more details [here](#).
